2016 Golden State Off Road 1/10th Scale Electric Championship Race August 6, 2016 General Rules

Rules that apply to all classes

Drivers are not allowed to stand on any device on the driver's stand that brings their waist level above the railing height. Should a shorter driver need to be elevated to see over the railing a step stool may be used however at no time should their waist be above the railing. Drivers may not use milk crates, 5 gallon buckets or the like. Race Director has the final say as safety comes first. Failure to abide by this will result in a 1 lap penalty or DQ as determined by the Race Director.

Each truck/buggy may be inspected before each heat and main to ensure conformance to the following rules:

The use of traction control sensing devices, active suspension devices, and steering control devices aided by gyroscopes or accelerometers (G-force sensors) of any kind is strictly prohibited. Sensors may be used for the purpose of passive data recording but not for adjusting the performance of the vehicle while in motion.

Battery Voltage may not exceed 8.44VDC.

All Motors and ESCs must be on the approved ROAR list.

Section 1: Rules that apply to ALL SCT classes at this race

Chassis: Any commercially available 1/10 Short Course Truck, NO 1/8 scale conversions

Body: Any commercially available 1/10 Short Course Truck body. SCT's ONLY- NO Baja Bugs, etc. Body must cover tires when viewed from above.

Section 2: Class Specific Rules

Run What You Brung - Novice

- **If you enter this class you may not enter any other classes.** This is to keep this class for the beginners and novice drivers only. At the Race Director's discretion you might be moved into a regular class.

- Pretty much anything within reason can run in this class, provided its safe and is controllable speed-wise. You might be asked to turn your ESC down to make the car controllable.
- Lately this class has consisted mainly of 2WD and 4WD electric Short Course Trucks. There are also 1/10 buggies and stadium trucks as well as the occasional monster truck.
- Whatever you have, bring it out and we'll get you on the track one way or another!
- You will run in this class along with a few other drivers with similar abilities and experience. You can get the feel of racing and have some fun.

2WD Sportsman Stock 17.5 SCT (NO Factory Sponsored Drivers)

- 17.5BL motor
- Any 1/10 stock blinky ESC
- 2S lipo Hard case only or 6-cell NiMh battery
- SCT-specific wheels and tires ONLY. NO 1/8 scale wheels and tires.
